

Stay independent...

Stay at Home...

It's The Best Way to Live!

A **Circle of Life Home Care Staff Specialist** will come to your home to complete a free in-home assessment. During the assessment our focus is for us to understand your needs and concerns so we can custom design a care plan ensuring the highest quality of care for you or your loved one.

If you decide on **Circle of Life Home Care** we then match your needs and personality to one of our Home Aide providers. We will also decide the best date to start, discuss pricing, and put together a schedule to fit your individual needs and desires.
